SWAROVSKI

Unleash your Savoir-Faire

Data Scientist (f/m/d)

Wattens, Austria

At Swarovski, where innovation meets inspiration, our people desire to explore, experience and create. We are looking for a Data Scientist (f/m/d) where you will get a chance to work in a rewarding role within a diverse team that is pushing boundaries. Be part of a truly iconic global brand, learn and grow with us. We're bold and inventive, revealing astonishing things like no one else can. A world of wonder awaits you.

About the job

— Designing and developing Advanced Analytics assets by translating business questions and requirements into actionable insights
— Partnering with other Business Functions to align with market state-of-the-art solutions and identify Advanced Analytics opportunities to be embedded the existing processes
— Leverage the Data Lake information and cloud infrastructure as well as the current technology landscape to design the solutions
— Developing data science products ensuring business improvements are impactful and aligned to the company objectives and strategy, including appropriate and structured documentation of the methodology and data used
— Selecting features, builds and optimizing models mainly using Machine Learning and other Advanced Analytics techniques
— Coordinating with the Innovation reference people to run pilot activities (e.g. A/B testing) needed to validate business outcomes
— Presenting results and insights to business and driving the conversation about innovation directions in the Advanced Analytics space

About you

We are looking for a unique and amazing talent, who brings along the following:

— University degree/ Education, preferably in in Mathematics, Statistics, Computer Science, Physics or similar
— Minimum 5 years of professional experience in a similar role within an international setting (experience in consulting role is a plus)
— Excellent analytical and problem-solving skills
— Excellent English proficiency, presentation and communication skills
— R and/or Python, modelling & real time analytics, database languages (e.g., SQL) and Big Data frameworks
— Knowledge of Google Cloud Platform is a plus
— Team orientation, and ability to work and interface effectively with all levels of the organization
— Innovative and creative attitude

Masters of Light Since 1895

Swarovski creates beautiful crystal-based products of impeccable quality and craftsmanship that bring joy and celebrate individuality.

Founded in 1895 in Austria, the company designs, manufactures and sells the world's finest crystal, gemstones, Swarovski Created Diamonds and zirconia, jewelry, and accessories, as well as crystal objects and home accessories. Together with its sister companies Swarovski Optik (optical devices) and Tyrolit (abrasives), Swarovski Crystal Business forms the Swarovski Group.

Swarovski is an equal opportunity employer. We give our people the guts to celebrate individuality and pride ourselves on creating a workplace where people feel involved, respected, valued, connected, and heard.
